I am an enthusiastic and hard-working person who is ready to learn and improve in any domain. I am also a creative problem solver within multiple programming languages such as Java, Python, and C#. Furthermore, I am seen as a logical person who can make decisions under a short amount of time. I can find decent solutions to future and potential problems that could arise. I like new challenges that allow me to learn new things in multiple domains or that allows me to improve my knowledge. Finally, I am a punctual person that is always in advance.

Strengths:

Unity game engine - Multiple OOP Programming Languages – Knowledge about multiple IDE
